SKY Digital tvLINK

SAVE OVER* 40%

The Global tvLINK system allows viewing of high quality Sky satellite, terrestrial and video pictures at a second location. With the added benefit of control, the tvLINK gives the viewer the sense of having a second Sky Digibox.
The tvLINK picks up the remote control signal and sends it via a coax cable back to the Sky Digibox, where it is decoded internally. This allows the tvLINK to be discreet and unobtrusive in operation.
- SKY approved
- Simple installation
- Discreet, modern design

HDMI Splitter - 2 Port

Compact 1 to 2 HDMI splitter, which distributes the input of the HDMI signal into 2 identical outputs simultaneously.
- Full 1080p HD resolution
- HDCP1.0/1.1 & HDMI 1.2a
- Supports 1.65Gpbs/165MHz Bandwidth
- VGA Resolution: 640x480, 800x600, 1024x768 & 1920x1200
- DTV/HDTV: 480i/576i/480p/576p/720p/1080i/1080p
- Easy to use, no settings
- Extend signals up to 15m
- Longer distances achieved by cascading two units
- Front panel power/output 1 & 2 LED indication
- Gold plated contacts
- Powered by 5V UK mains adaptor (included)
- Dimensions (HxWxD): 154x70x23mm
- Weight: 42g

HDMI to AV (Phono) Converter

pro-SIGNAL

Model: PSG03635

A HDMI to AV converter which converts digital HDMI signals into analogue composite video and L/R audio signals.

- Converts HDMI input into composite video L/R audio output
- Up to 1080p HDMI resolution
- Up to NTSC/480i or PAL/576i analogue composite Video output
- For use with non-HDCP compliant content
- Uncompressed R/L Audio output support
- PAL/NTSC Switch on output
- LED Indication on signal In & Out
- Simple plug & play
- Metal body with gold plated connectors
- **Input:** HDMI socket
- **Output:** 3x Phono (RCA) video & L/R audio
- Dimensions (WxHxD): 100x24x102mm
- Supplied with power adaptor & user manual

£36.50

order code AV2135506 645436

HDMI to VGA+Audio Converter

pro-SIGNAL

SAVE OVER* 10%

A Simple HDMI to VGA+Audio converter for screens or projectors without HDMI inputs.

- **Input:** HDMI socket
- **Outputs:** VGA & 2x phono (RCA) stereo audio sockets
- Plug and play no software or settings required
- For use with non-HDCP compliant content
- 165MHz/1.65Gbps Per channel (6.75Gbps all channel) bandwidth for HDMI Input
- Analogue video output up to UXGA & 1080p with 10-bit DAC
- 480i/480p, 576i/576p, 720p & 1080i/1080p HDMI input & VGA ouput
- 2 Channel LPCM audio output
- Supplied with power adaptor
- Metal body for better EMI elimination & gold plated contacts

£26.50

Stereo Audio Over CAT5

Send stereo audio signals over a standard UTP CAT5 cable. Common signals formats such as composite video, RGB component video, S-video and line level audio can easily be sent over UTP cable for considerable distances

- Connections: 2x Phono sockets (stereo audio) & 1x RJ45 socket
- Gold plated phono sockets
- Passive, requires no power
- Maximum cable length: 152m
- **Used in pairs but sold individually**

£9.19

order code AV1746006 527980

VGA+L/R Audio to HDMI Converter

SAVE OVER* 10%

A VGA + L/R audio to HDMI signal converter which allows computers output to be displayed on large HDMI equipped HD TVs

- **Inputs:** VGA socket and 2x phono sockets
- **Output:** HDMI socket
- Supports VGA resolutions up to 1280x1024
- Supports HDTV resolutions up to 1080P
- LED indication on signal detection
- Plug and play, easy to install
- Dimensions (WxHxD): 89x29x68mm
- Supplied with power adaptor and user manual

Supports PC VGA/RGB but not compatible with laptops or HDMI devices earlier than v1.2

£26.27

order code AV1850106 532335

A/V Over CAT5 with IR Extender

Send composite video, stereo audio and IR remote signals over a standard UTP CAT5 cable.

- Connections: 3x phono sockets (composite video and stereo audio), 1x RJ45 socket & 3.5mm jack IR sockets
- Allows two devices to be controlled by original remote controls
- Gold plated phono & RJ45 connectors
- Maximum cable length: 300m (CAT5e UTP cable)
- Powered by 12V, 500mA AC/DC adaptor (included)
- Supplied in pairs Rx+Tx

Raspberry Pi 7" Touchscreen Display

Model: RASPBERRYPI-DISPLAY
The 7" Touchscreen Monitor for Raspberry Pi gives users the ability to create all-in-one, integrated projects such as tablets, infotainment systems and embedded projects. The 800x480 display connects via an adapter board which handles power and signal conversion. A range of display frames are available separately to support and protect your Touchscreen while maintaining all the functionality.

Features:
- 10 finger capacitive touch
- Screen Resolution: 800x480 pixels
- Screen Dimensions: 194x110x20mm
- Viewable screen size: 155x86mm

Contents:
- 7" Touchscreen display
- Adapter board
- DSI ribbon cable
- 4x stand-offs and screws
- 4x jumper wires

Compatible with the Raspberry Pi 2 Model B, Raspberry Pi Model B+/A+

Grow the Difference

Grove is a modulated, ready-to-use tool set. Much like Lego™, it takes a building block approach to assembling electronics. Compared with the traditional, complicated learning method of using a breadboard and various electronic components to assemble a project, Grove simplifies and condenses the learning process significantly.
The Grove system consists of a base shield and various modules with standardized connectors. The base shield allows for easy connection of any microprocessor input or output from the Grove modules, and every Grove module addresses a single function, such as a simple button or a more complex heart rate sensor. Each one comes with clear documentation and demo code to help you get started quickly.

cpc.farnell.com/seeed-technology

LinKit ONE - Development Board

The LinkIt ONE development board is an open source, high performance board for prototyping Wearables and IoT devices. It's based on the world's leading SoC for Wearables, MediaTek Aster (MT2502) combined with high performance Wi-Fi (MT5931) and GPS (MT3332) chipsets to provide you with access to all the features of MediaTek LinkIt. It also provides similar pin-out features to Arduino boards, making it easy for you to connect to various sensors, peripherals, and Arduino shields.
It also provides similar pin-out features to Arduino boards, making it easy for you to connect to various sensors, peripherals, and Groves.
All-in-one features: Includes ARM7 EJ-S™, GSM, GPRS, Wi-Fi, Bluetooth BR/EDR/BLE, GPS, Audio codec, and SD card connector on a single development board
Rich-Compatibility: Pin-out similar to Arduino boards, including Digital I/O, Analog I/O, PWM, I2C, SPI, UART and power supply, compatible with Grove 4-pin interface
Strong Extensibility: Provides various interfaces for connecting to most sensors, peripherals, Groves, and other widgets
Easy Prototyping: You are what you wear. Using LinkIt ONE together with MediaTek LinkIt SDK (for Arduino) you will be able to easily turn your ideas into practical prototypes

£53.99

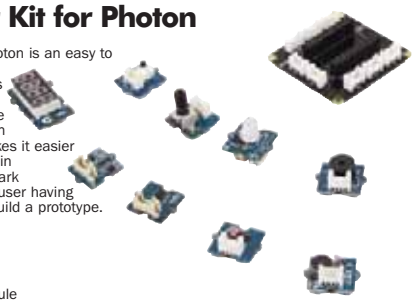
Grove Starter Kit for Photon



The Grove Starter Kit for Photon is an easy to use plug-and-play kit for the Photon. One base shield lets you connect a variety of included Grove modules. The Grove Shield for Photon is an expansion board, which makes it easier for users to build Groves 4-pin standard interfaces from Spark Photon and also avoids the user having to use too many cables to build a prototype.
Kit Contents:
- Grove Shield for Photon
- Button module
- Buzzer module
- Rotary angle sensor module
- Temperature sensor module
- Light sensor module
- Chainable RGB LED module
- 3-Axis digital accelerometer (±1.5g) module
- 4 Digit display module
- Vibration motor module
- Connection leads
- User manual

£32.99

BeagleBone Green

The BeagleBone Green is based on the open-source hardware design of the BeagleBone Black and has been developed into this differentiated version. It includes two Grove connectors, making it easier to connect to the large family of Grove sensors and has updated the 5V barrel to a micro USB host.
Features:
- USB client for power and communications
- 2x 46 Pin headers
- USB host
- Ethernet and 2x Grove connector interfaces
- 512MB DDR3 RAM
- 4GB 8bit eMMC On-board flash storage
- BeagleBone Black software and cape compatible

Grove Mixer Pack V2 - Plug and Play

The Grove Mixer Pack is stand alone, Lego like electronics kit. The Mixer Pack consists of 13 mini modules which include Power, Logic, Sensors and Actuators. The modules are grove compatible and designed for quickly building functional prototypes.

£34.99
code MK0038106

Grove - Starter Kit for Arduino - V3

The Grove Starter kit is a modular electronics platform for quick prototyping that does not involve soldering or bread boarding. Simply plug the Grove modules into the Grove shield and use the example code provided for each Grove module. The Grove Starter Kit contains a multitude of sensors and actuators, so you can start messing around with projects.
Kit Content: 1x Base Shield, 1x Grove - LCD RGB Backlight, 1x Grove - Smart Relay, 1x Grove - Buzzer, 1x Grove - Sound Sensor, 1x Grove - Touch Sensor, 1x Grove - Rotary Angle Sensor, 1x Grove - Temperature Sensor, 1x Grove - LED, 1x Grove - Light Sensor, 1x Grove Button, 1x DIP LED Blue-Blue, 1x DIP LED Green-Green, 1x DIP LED Red-Red, 1x Mini Servo, 10x Grove Cables, 1x 9V to Barrel Jack Adapter, 1x Grove Starter Kit Manual, 1x Green Plastic Box.

£29.99

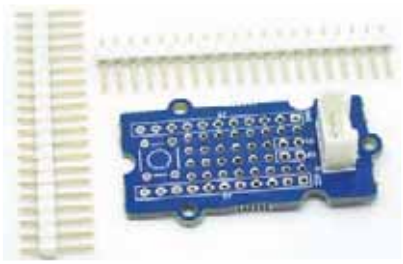
code SC1382206

Grove - Proto Shield



This Proto Shield allows you to add your own circuitry or components to your Grove system prototypes. This allows you access to all four lines from the connector cable (S0, S1, VCC and GND). There is also an extra normally open button to take advantage of. The hole spacing makes using normal DIP-format ICs and other components very simple.
- **Standardized** - Scalable Jigsaw shaped, unified 4-pin connector, screw hole grid, edge solder pad
- **Compact** - Size from 2x2cm, seamless combination, surface mounting components
- **Friendly** - Easy buckled connection, various extension modes, open DIY, libraries and demo codes
- **Plentiful** - Large selection of common circuits from basic to professional

£1.49
code SC1381706

MAKE LEARNING A SNAP

Snap Circuits Junior - 100 Experiments

Snap circuits makes learning electronics easy and fun. Just follow the colourful pictures in the manual and build exciting projects such as a flying saucer, alarms, doorbells and much more. You can even play electronic games using a variety of parts included. All parts are mounted on plastic modules that snap together with ease. Enjoy hours of educational fun whilst learning about electronics and best of all no tools are required.

£19.95
code HK0122606

Snap Circuits - 300 Projects

Contains everything included in the 100 project kit plus the parts and instructions for 200 new projects including:
- AM Radio
- Radio Annoucer
- Lie Detector
- Burglar Alarm

£37.95
code HK0122706

175 Light Experiments

Connect your iPod® or MP3 player and enjoy the music as your light circuit changes to the beat. The strobe light with spinning patterns creates some stunning visual effects.

£42.95
code HK0123106

Snap Circuits Pro - 500 Projects

Contains everything included in the 300 project kit plus the parts and instructions for 200 new projects including:
- FM Radio
- Adjustable light control
- Digital voice recorder
- AC Generator

£49.95
code HK0122806

100 Green Experiments

Learn about energy sources and how to think green. This kit allows you to build over 125 projects using the flexibility of snap circuits and creates a lot of fun learning about environmentally friendly energy and how electricity works in the home.

£42.95
code HK0123006

Snap Circuits Extreme - 750 Projects

Contains everything included in the 500 project kit plus the parts and instructions for 250 new projects including:
- Strobe Light
- Transistor AM Radio
- Electromagnetism
- Rechargeable Battery

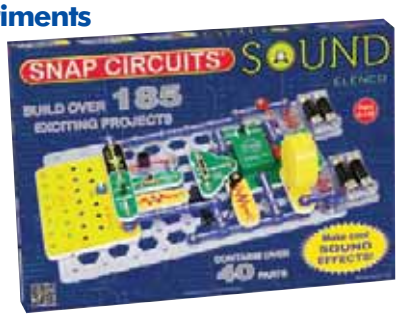
Contains over 80 parts including:
- Solar Cell
- Electromagnet
- Vibration Switch
- Computer Switch

£69.95
code HK0122906

185 Sound Experiments

Learn all about the principles of how sound works. This kit shows the ability to create echo effects, voice changer, record/play music and connect your smart phone to analyse sounds

£33.95
code HK0123206



750 Experiments Educational

This is ideal for school where students will grasp the basic principles of electronics. The Model SC-750R is an in-depth exploration of the electronic components included with the SC-750 Snap Circuits® Extreme.

The Student Guide is essential in covering all topics related to electricity and electronics being taught in Secondary schools and above. Includes real world applications and problem solving quizzes.

The Teacher Guide is meant to prepare teachers for proper introduction of Snap Circuits® and guide them through each chapter with quizzes for students to test their knowledge.

littleBits

LITTLEBITS IS A PLATFORM OF EASY-TO-USE **ELECTRONIC BUILDING BLOCKS** FOR CREATING INVENTIONS LARGE AND SMALL.

littleBits Kits come with individual Bits and detailed, step-by-step instructions for building your very first inventions.

The littleBits system is modular so every Bit works with every other Bit in the library!

UNLEASH YOUR INNER INVENTOR

Hardware Development Kit

The Hardware Development Kit is the quickest way to get started developing your own module for the bitLab. The two proto modules allow you to connect to PCBs and breadboards, while the Perf module allows you to build a small circuit right on the module. When you're ready to design your own PCB, you can use the included grey bitSnap connectors to attach to the board. Also included are colour-coded stickers so you can easily denote your bitSnaps as power, input, wire or output.

Contents:

- 2x Proto modules • 1x Perf module
- 12x bitSnaps (6 male and 6 female)
- Colour-coded bitSnap stickers (blue, pink, orange and green)

£27
code SC1389106

Arduino Coding Kit

This kit contains 8 of our favourite prototyping modules with everything you need to get started with electronics and programming. With this kit you'll be able to make your own Etch-a-Sketch and program a visual display amongst other things. We'll walk you through the basics using the Arduino programming environment, without the breadboarding, soldering or wiring normally required. Perfect for hackers, designers, makers and tinkerers of all levels.

Features:

- Includes everything you need to get started in the box
- 8 Projects included and hundreds more from Arduino's community
- Communicate with software (Processing, MaxMSP, Flash etc)
- Snap modules easily to 3 inputs and 3 outputs on the Arduino module, as well as additional I/O for advanced hardware interaction
- Access to community support from Arduino and littleBits

£62
code SC1388906

Base Electronics Kit

Getting started with electronics has never been easier. The Base Kit is perfect for kids and younger makers to begin inventing with electronics in seconds. Bits snap together with magnets, so it's impossible to make a mistake. You can learn the basics of electronics, explore STEAM/STEM principles, form the foundations of critical thinking, or just have fun with blinking, buzzing creations. No soldering, wiring or programming required.

Features:

- Over 150,000 possible circuit combinations
- Includes instruction book with 8 projects and hundreds more available online
- Kit features 10 modules including DC motor, buzzer, dimmer, light sensor and more
- Create projects like a pizza box phonograph, drink mixer, art bot and star chart
- Master the kit and add new modules when you're ready

£65
code SC1388306

CloudBit Starter Kit

This kit includes the cloudBit plus 5 of our favourite prototyping modules; everything you need to create internet-connected devices in seconds. Recreate the most popular smart devices or invent a project that solves your own, unique problem. Perfect for hackers, designers, makers and tinkerers of all levels without the programming, soldering and wiring normally required.

Features:

- Includes everything you need to get started in the box
- Comprises 6 modules, wall power and mounting boards
- Your LittleBits library can talk to the internet and vice versa
- 5 Introduction projects, including an SMS doorbell, internet-connected lamp and many more available online
- Automate with IFTTT to connect with any web service or hardware like NEST and Phillips HUE
- Remote control and readout to control your circuits across the room or across the world

£65
code SC1389006

Space Electronics Kit

littleBits brings you fun and powerful ways to explore Earth and space science in the classroom and at home using the modules to make a variety of different projects.

Features:

- Designed in collaboration with NASA scientists and engineers
- Includes 12 modules, 5 NASA lesson plans and 10 STEAM activities
- Learn scientific principles like electromagnetic, kinetic, & potential energy
- Projects include making a Mars Rover or an ISS and transmit music wirelessly
- Connect with the littleBits library to infinitely expand your discoveries

£100
code SC1388706

Premium Electronics Kit

Get your kids to invent anything with the Premium Kit. It unlocks more powerful interactions with bits like the servo and vibration motors and is perfect for makers who want a deeper introduction into inventing. You can learn the basics of electronics, explore STEAM/STEM principles, form the foundations of critical thinking or just have fun with whirring, buzzing creations.

Features:

- Over 600,000 circuit combinations possible
- Includes booklet of 10 projects and with hundreds more available online
- Contains several modules including a fan, pressure sensor and vibration motor
- Projects include a bubble flute, "don't-leave-home-without-it" machine and interactive piggy bank
- Endless hours of fun and creative possibilities

£100
code SC1388406

Synthesizer Electronics Kit

LittleBits and KORG have demystified a traditional analogue synthesizer, making it easy for novices and experts alike to create music using a modular design.

Features:

- Connects to speakers, computers and headphones
- Can be used to make your own instruments
- Fits into the LittleBits modular system for infinite combinations of audio, visual and sensory experiences

£105
code SC1388606

Deluxe Electronics Kit

The biggest kit we make with 18 powerful modules that can be used whether you're a professional designer or just getting started with electronics. The Deluxe Kit gives you the flexibility you need to make big, powerful projects with no soldering, wiring or programming required.

Features:

- Over 1 million circuit combinations possible
- Includes booklet of 15 projects and with hundreds more available online
- Contains several modules including a DC motor, servo and sound trigger
- Projects include a GoPro revolver, light-up shoes, voice activated Lego car, drink stirrers and art robots
- Endless hours of fun and creative possibilities

£130
code SC1388506

TECHNOLOGY WILL SAVE US.

GADGETS YOU CAN MAKE AND CODE YOURSELF!

Technology Will Save Us design gadgets that you can make yourself. Our DIY kits and resources are the best way to learn skills, make cool things and begin your own journey as a tech maker.

DIY Instrument Kit

A DIY kit that comes with a custom designed circuit board and all of the components you need to make your own musical device. This is an easy and fun way to learn the art of soldering, begin to understand the electronic components that make up most of the technology in our lives and make something fun and creative.

Kit Includes:

- 1x 1.2K Resistor
- 2x 150R Resistor
- 2x LDRs
- 2x LEDs
- 1x Integrated circuit
- 1x On/Off switch
- 1x Transistor
- 1x Capacitor
- 1x Speaker
- 1x Double side foam tape
- 1x AA Battery holder
- 1x Lumiphone printed circuit board

£13.49
code MK0005906

DIY Speaker Kit

This DIY kit comes with a custom designed amplifier called the Uber Amp 9000 and all of the components you need to make your own set of speakers out of any material. This is a great way to learn how to solder, understand how sound works and make something useful for your listening enjoyment.

Kit Includes:

- 1x 10K Resistor
- 2x 4.7Ω Resistors
- 1x 33Ω Resistor
- Diode
- 1x Red LED
- 1x Stereo Input Jack
- 1x Switch
- 1x 8 Pin black socket
- 2x 100 nF Capacitors
- 1x 10nF Capacitor
- 3x 10uF Capacitors
- 1x Black Terminal Block
- 1x 4.7K Potentiometer
- 1x 8 Pin TDA2822 amplifier
- 1x Battery Holder
- PCB - printed circuit board with stereo jack attached
- Stereo cable
- Double Sided Foam Tape
- 1x Speakers • Speaker cable

£23.99
code MK0005806

Thirsty Plant Kit

A DIY kit that uses an extremely simple circuit and all of the components and materials you need to make your own solar powered Thirsty Plant detector. This is an easy and fun way to actually make your own sensor, connect it to the sun using a solar panel and learn something about the hunger of your plants. Enter the world of creative technology by doing something both fun and practical.

Kit Includes:

- 2x LEDs
- 2x Mosfet
- 2x 1M Resistor
- 2x Galvanized nails
- 1x Wire pair for sensors
- 1x Rubber tubing
- 1x Plastic marker
- 1x Solar panel
- 1x Plaster of paris
- 1 x Empty plastic container
- 1x Pre-made cast plaster sensor

£16.99
code MK0006106

Electro-Dough Kit

This kit allows you to create your own responsive and interactive sculptures using LEDs, batteries and playdough. Electro-Dough promises to take a hands on approach to discovering the possibilities of using electronics and programming in creating physical objects.

The conductive dough contains lemon juice which aids the flow of electrons through the circuit. The non-conductive dough contains sugar, which makes it resistive. Use the two different doughs to create electronic sculptures.

£12.49
code MK0006006

DIY Speaker Kit

The Start Arduino Kit is a box of goodies to get the very beginner started with programmable electronics. It includes all the bits you need to build basic circuits, no soldering required.

Kit Includes:

- Arduino Uno (R3)
- USB A to B Cable
- Half size breadboard
- 10x Red LED • 10x Green LED
- RGB LED
- 10x 10nF Capacitors
- 10x 100nF Capacitors
- 5x 100µF Capactitors
- 10x 330R Resistors
- 10x 1k Resistors
- 10x 10k Resistors
- M-M jumper wires
- 5x Tac switches
- 5x Slide switches
- Mini servo • 9v Battery clip
- Tilt switch
- Thermistor
- Photo resistor
- Diode
- Buzzer
- Potentiometer

£41.49
code MK0006206

DIY Gamer Kit

Build your own handheld games console that uses different inputs to control an 8×8 LED matrix screen. The DIY Gamer is made up of 40 separate parts that you solder together on your custom designed printed circuit board to make a complete console. Then using your included acrylic accessories, bolts, nuts and standoffs, attach the base plate to your Arduino Uno board (**Not included**) and the front fascia around the screen to give it a bit of personality. Now add your battery and lanyard- you're ready to play.

£49.99
code MK0006406

SC1316506 Arduino Uno £16.80

DIY Electro-Synth Kit

This DIY kit includes all of the components you need, including the world famous 556 Integrated Circuit, jumper wires and prototyping breadboard as well as a speaker to create your very own DIY Synth. In building the circuit you gain an understanding into how the various components combined can create a whole plethora of wonderful noises.

Kit Includes:

- 1x Breadboard
- 1x 9V Battery Clip
- Selection of Jumper Wires
- 1x 8Ω Speaker
- 1x 1k Resistor
- 1x 4.7k Logarithmic Potentiometer
- 2x 470k Potentiometer
- 1x NE556 Timer IC
- 1x 10uf Capacitor

£18.99
code MK0006306

All prices exclude VAT

USB Robot Arm Kit

cebekit

Cebekit C-9895.2

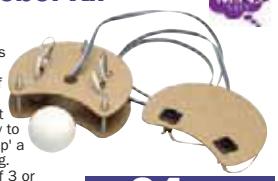
- Learn basic robotic technology and build your own wire controlled robot arm with five motors and five joints
- Features base rotation, base, elbow and wrist motion, and a functional gripper
- The 5 motors operate the grab, release, lift and lower
- A built-in searchlight brings more fun when operated in the dark.
- Maximum Lift: 100g
- Angle of rotation: 270°
- Supplied with full assembly and operating instructions
- Requires 4x D type batteries (not included)
- Dimensions: 400x129x85mm
- Weight: 698g
- Requires no soldering to build. Tools needed: Pliers, wire snips, screwdriver
- Recommended for adults and children 14 years and over

USB Interface

- All the software and hardware required to control the arm from a PC
- Includes: Interface board, USB cable and PC Software

£31.95
code HK0122406

Football Robot Kit

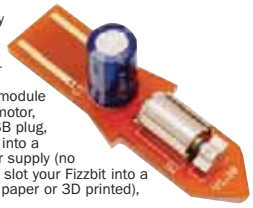


A remotely controlled robot with two motors controlled by two buttons at the end of an umbilical cord. The front of the robot is shaped specifically to allow the robot to 'cup' a ball and push it along. Great fun in teams of 3 or 5 and a great giggle in 1 on 1 bouts.
1x AA Battery required (not included), kit assembly required.

£4.79
code HK0141006

Fizzbit Module - Create your own Vibrating Robot

Kitronik



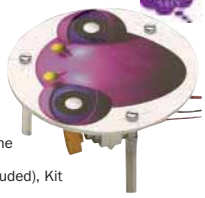
The Fizzbit, designed by The Crafty Robot, is a way to bring movement and excitement to mini-figures of your own invention. It is a small module containing a vibration motor, super capacitor and USB plug, which can plug directly into a computer or USB power supply (no batteries required). You slot your Fizzbit into a mini-figure (made from paper or 3D printed), turning it into a Fizzbot.

Features:

- Pre-built fizzbit module, no soldering required
- Rechargable module (20 seconds approx)
- Download robot designs from www.thecraftyrobot.net/

£4.49
code HK0153306

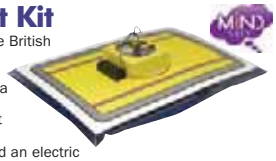
Bug Kit



This kit makes use of a rapidly spinning off-centre mass to cause movement. When the battery is connected the bug vibrates and moves around at random on a hard surface. The battery and motor are hung underneath so that a graphic image can be glued on top of the plate.
1x AA Battery required (not included), Kit assembly required.

£2.29
code HK0141106

Hovercraft Kit



In the mid 1950s the British radio engineer Christopher Cockerell developed a jet system which he called the 'hovercraft principle'.
His experiments used an electric blower and two tin cans, one inside the other, to show the principle. This clever motorised kit will enable you to discover the hovercraft principle for yourself by turning a sheet of A3 card and a self-seal bag into a working hovercraft.
2x AA Batteries required (not included), Kit assembly required.

£5.79
code HK0141306

Asuro Robot Kit

AREXX

ASURO is a tiny mobile robot developed for educational purposes by DLR, the German aerospace centre. It is very flexible and completely programmable in C. Assembly is easy for experienced electronic technicians and feasible for a novice. Therefore ASURO is suitable as an introduction into processor-controlled hobby electronics, for projects in schools and universities, for studies and adult education centres.

Features:

- Atmel AVR RISC processor (ATmega) • 1x Optical line tracer
- 6x Collision detector switches • 2x Odometer sensors
- 3x LED indicators • 1x IR interface for remote control
- 2x Controlled motors
- Includes CD with samples and instructions

HK0119512	Prototype Expansion Board	£3.99

£38.99
code HK0119412

"Ladybug" Robot Kit

KSR6

The Ladybug Robot walks on six legs and uses infrared emitting diodes for eyes in to avoid obstacles. It walks straight ahead but automatically makes a left turn when an obstacle is detected. Comes with 2 sets of differently designed legs that move in their own distinct way.
Dimensions: 120x150x85mm

£14.99
code HK0097006

Arduino Robot Kit

AREXX

There are a number of ways to build an Arduino robot, the assembly of this robot is already done, so this means you can start with the programming immediately. The AREXX Arduino robot is an autonomous, multiple sensor robot. Besides two Odometer sensoren and an optical unit to track a line it has several LED indicators, and free programmable I / O's. With the integrated USB programmer it is comfortable programming via PC, there is also an ISP connector for bootloader programming. The programming is done in a Arduino open-source development environment that is based on a simplified C-dialect. This Arduino robot is simplified by the C programming language dialect and very well suited for school and education. With the many expansion kits there is still a complete world to discover and to experiment with your own ideas and developments.

£38.99
code HK0121206

SW-007K SkyWalker Robot Kit

AREXX

Sky Walker is a striking, little robot with two sensors. One sensor reacts on light intensity changes and the other one to sound. Depending on the Sensor Values, the robot starts walking and automatically stops after a few seconds. With this educational robot project everybody can learn the basic principles of electronics. The robot is supplied as a construction kit and requires some soldering. It is available as a pre-soldered and a soldering required version. The manual not only gives step-by-step instructions with clear images how to build the robot. It also contains a lot of extra information about the world of electronics and mechanics.

HK0121106	SkyWalker Robot Kit	£11.99
HK0122506	SkyWalker Robot Kit Soldered	£14.99

"Escape" Robot Kit

The Escape Robot Kit works just like an A.I. robot. It never fails to find its way out of a maze.

- Uses 3 IR emitting diodesand 1 IR receiving module to detect obstacles
- Built in Microprocessor allows it to think on its own
- Moves about on 6 legs
- Comes with 2 sets of differently designed legs that move in their own distinct way
- Dimensions: 140x150x100mm

Premium-Line, 6-Way Extension Leads - 3m

brennenstuhl

High quality, six-way extension sockets with a single illuminated switch to indicate power. Manufactured from break and shock resistant plastic, the sockets have two mounting holes on either side to allow mounting to walls or panels. The design of the socket allows the cable to be neatly wound around the body when not in use.

- Approximate socket length 53cm
- Max Load: 13A/3120W

Quicktest

CLIFF

Constructed from tough impact resistant, flame retardant plastic. The lid incorporates a fuse and switching device. When the lid is open the cable clips are isolated from the supply. When closed the power is connected. A glowing neon lamp is visible with the lid open or closed indicating when power is connected to the device.The Quicktest provides a quick and secure method of temporarily connecting 2 or 3 core bare ended flexible leads to the mains. Maximum 13 amp.

Energenie MiHome Radiator Valves

SAVE OVER* 15%

Model: MIH00013 Series

The MiHome Radiator Valves allow you to monitor the temperature and then adjust the radiator in accordance of the users settings and rules. Using the App (Android/iOS) you are able to group these in to room or areas and create zoned heating areas. You are able to use all the control features in the MiHome App including simple on/off, timers and geofencing.

The valves are a transmitter/transceiver and therefore will let the user know when an action has been carried out.

- Available as a pack of 2x or 4x valves

Pull Apart Connector

Designed initially for lighting circuits to enable isolation of transformers, control gear etc, whilst conducting a 1000V insulation resistance test.

- All in one junction box and connection system
- Versatile easy-connection system for fixed wiring applications
- 3 Pole plug in connector with loop terminal
- Cable grips for where the installation limits the fixing of the connector
- Large terminal with easy access
- Rated 250V, 20A
- Male: Max. 2.50mm² 3 core cable
- Female: Max. 3x 2.50mm² twin and earth (with additional loop terminal)
- Dimensions (HxWxD): 23x45x105mm

Battery Tester - SLA & Car Battery

ACT

ESSENTIAL!

Model: CHROME-IBT

The ACT Chrome is an intelligent battery tester, designed for 12V lead acid batteries from 1.2Ah to 200Ah. It allows simulation of a full battery discharge test in seconds. A table on the meter indicates when batteries should be recharged or replaced due to age or operating conditions (65% of rated capacity). A temperature sensitive strip also records ambient temperature.

- Tests 12V SLA and car batteries
- Displays DC voltage and Ampere-hour (Ah) capacity available in the battery
- Pulse load analysis accurately measures Ah capacity available in seconds
- Reverse polarity protection
- Ideal to test 12V standby batteries in fire and security systems

Technical Data

Operating voltage	12Vdc
Battery type	SLA (sealed lead acid) & car batteries
Battery size	1.2Ah-200Ah
Display	Backlit LCD
Dims (WxHxD)	55x100x35mm

Insulation Tester

- 250V/500V/1000V Test voltage selection for MΩ testing
- Low Ω function for testing connections
- Data hold
- Continuity buzzer
- Over range indication
- Supplied with test leads 6x AAA batteries and hard plastic carry case

SAVE OVER* 25%

£59.95

order code IN0546206 632008

Tone and Probe Kit

- Identify or trace wires or cables within a group without having to damage the insulation
- Check continuity of cables and wires
- Track cables and wires and locate break points
- Identify the state of working telephone lines (clear, ring, busy)
- Send a single solid tone or dual alternating tone down a wire

Network Cable Testers & Verifiers

IDEAL NETWORKS

ESSENTIAL!

Model: VDV II Series

The new VDV II Series are easy to use cable verification testers that check the integrity of copper cables found in domestic, commercial or industrial voice, data or video installations, including telephone wiring, data network and video/security cabling.

VDV II

- RJ11/12 & RJ45 input connectors for copper cable testing
- Wiremap for miswires, split pairs, shorts and opens
- Identifies crossover/uplink cables
- Analogue tone generator with 4 selectable tones
- Unit alerts user to errant/unidentified voltage and prevents damage to tester
- Tests Cat 3, Cat 5e, Cat 6, Cat 6A, Cat 7 and STP (shielded) cables
- 2.7" Clear, easy to read display

VDV II Plus, as above plus:

- Larger 2.9" display
- Hub blink to identify port connectivity
- Cable length measurement including distance to opens to aid in troubleshooting

VDV II Pro, as above plus:

- TDR measurement to identify distance to opens and shorts
- PoE detection with voltage, pin and polarity information
- Phone service detection: PBX/ISDN
- Ethernet detection with network rate & duplex information

Bench Power Supplies - Dual Outputs

ESSENTIALS

Dual output power supply units which offer a 0V to 30V adjustable voltage output, alongside an adjustable 0A to 5A or 0A to 3A current outputs. Easily connect to the unit through the adaptors on the openly spaced user friendly front panel.
- Complete digital control
- Dual output
- 10mV / 1mA Resolution
- Low noise and ripple
- CV / CC Constant voltage and constant current mode
- OCP & OVP Settings, constant protection mode
- 5 Sets of parameters can be stored and recalled
- Output switch control
- Power-off memory function
- Keyboard lock function

Contents: Power supply, User manual, UK power cord & Euro power cord

Micro PC Oscilloscope

Model: BitScope Micro Model 5
A mixed signal scope including a powerful logic protocol analyzer, waveform & pattern generator, spectrum analyzer and data recorder in one tiny lightweight and waterproof USB powered package. Compatible with Raspberry Pi, Windows, Mac OS X and Linux on x86 and ARM. It's your ideal test and measurement companion.

- Dual channel digital storage oscilloscope
- 12 Bit analogue sample resolution and high speed real-time waveform display
- Capture 8 logic/timing signals along with cross-triggers for multi-channel mixed signal measurements
- Capture SPI, CAN, I2C, UART & logic timing concurrently, solving complex system control problems
- Display analogue waveforms and their spectra simultaneously in real-time
- Generate an arbitrary waveform, capture analogue & digital signals concurrently
- Enables creation of programmable logic and/or protocol patterns
- Record to disk anything BitScope can capture, allowing off-line replay & waveform analysis
- User programmable, C/C++, Python, VM API
- Available with a BNC adaptor to connect standard oscilloscope probes or twisted pair inputs

TRMS Multimeter with USB Interface

Model: 72-7730
Full function multimeter offers a variety of ranges for every service application, the accuracy of a 19,999 count display, and an optically isolated USB interface. It measures AC/DC voltage, AC/DC current, resistance, capacitance, temperature, frequency and duty cycle. Triple display features 12mm primary digits and dual 6mm secondary displays, plus an analogue bargraph and numerous on–screen icons.

- True RMS measurement
- AC+DC measurement
- Selectable auto/manual range
- Data logging and data recall
- Peak hold and data hold
- Max/min mode and relative modes
- 4 - 20mA Current loop measurement
- Dual level backlit display
- 600V CAT4 and 1000V CAT 3
- Supplied with 100mm opto–coupled USB cable, data logging software, standard test leads, short clip leads for accurate capacitance measurements, alligator clip adaptors, 9V battery, soft case and detailed instruction manual

Counting Scales

A set of general purpose counting scales that are high quality and easy to operate.

- High performance 30,000 divisions
- Configurable scale ID and RS-232
- ABS base with stainless steel weighing plate
- Upper and lower count limits
- Accumulation and preset tare functions
- Dual power (rechargeable battery & mains adaptor)
- Currency feature for $, £ & Euro (30kg version)
- 292x222mm Weighing plate
- Dimensions (LxWxH): 333x292x109mm

Capacitance and ESR Meter

Measuring a capacitor's ESR is a great indicator of capacitor condition. The Atlas ESR offers instant results and can be used in-circuit so capacitors don't need to be removed. When testing out of circuit the meter will also show the capacitance, and can still be used on highly charged capacitors.

Model: Atlas ESR60

- Measure capacitance and equivalent series resistance (ESR)
- Capable of in-circuit testing
- Polarity free, will connect any way round
- Protected against highly charged capacitors
- 1ΩF to 22 000ΩF range
- 0.01µ ESR resolution
- 1.5% Accuracy

CCTV Warning Signs

Weatherproof CCTV warning signs made from a tough but flexible polypropylene so they won't chip, crack or shatter. Pre-drilled holes make for a fast and neat installation and rounded corners help with health and safety regulations.

- Each sign features a unique QR code (Quick Response) and scheme ID, so that it can be easily registered to the scheme operator
- No limit to how many signs or locations that can be registered to each scheme operator
- Unique QR codes offer a much cheaper alternative to costly personalised signs
- Members of the public or the police can scan the QR code in seconds with their mobile phone or tablet device
- Printed in a new technology ink with a high fade resistance for long term outdoor use
- Data compliance ready
- Available in A3 or A4 sizes

VideoMitter Lite

The VideoMitter Lites are a breakthrough in the transmission of video signals. By digitising the video and audio signals, far superior performance can be achieved in transmission distance and received image and audio quality. Both the Tx and Rx units have monitor video and audio out phono sockets. This allows you to connect an additional monitor with audio at the camera and DVR end for extra security.

- Monitor video and sound up to 1.2km with other antennas (200m as supplied)
- Digital data transmission for cleaner, sharper images over longer distances
- Privacy Pairing function for private video transmission, helping comply with DPA
- Video and audio loopthroughs for adding an extra monitor with sound at either end of the transmission
- Whisper mode listens for data at a low power for energy efficiency
- 2.4 to 2.4835GHz frequency
- Up to 20 pairs on 1 site
- Antenna - RP SMA Female
- Audio input - phono
- Video input - phono
- Includes Tx and Rx unit with antennas, 4x phono AV cables and 2x 12V DC power supplies
- Dimensions (WxHxD): 115x80x25mm

Multi-Purpose Fire Extinguisher

This multi-purpose fire extinguisher is designed for use on small domestic fires before they get out of control and without taking unnecessary risks. A fire extinguisher's rating is the measure of its fire fighting capability, and for domestic purposes, an ABC-rated extinguisher is recommended because it can be used on most types of fire common to the home or vehicle.

- Easy to use, lightweight extinguisher
- Pressure gauge for added reassurance that the extinguisher is fully charged and ready to use
- Mounting bracket included as standard
- Fully approved to the European Standard EN3
- 5A 34BC Fire rating
- Safe for use on electrical fires
- Weight: 1kg

Rubber Sleeve Hex - Plus Key Set - 9pc

Wera

Hex key set with features that allow more torque to be delivered, dramatically reducing rounding out in the hex heads and for more comfort during use. Strong round bar with machined Hex-Plus® profiles for precision fit. Plastic sleeves deliver more comfort and the rainbow spectrum allows quick and easy selection. Wera's patented Hex-Plus® profile allows up to 20% more torque without damaging the fastener.

- Hex-Plus geometry drives from flats not corners allowing more torque and reduced rounding
- Long arm keys with ball-end for angled access to screws
- Made from round bar for more strength, eliminating small key breakage
- Sleeves give more comfort and are impervious to all workshop fluids
- Button opening tool clip holds keys firmly, but allows easy tool selection
- Sizes: 1.5x90, 2x101, 2.5x112, 3x123, 4x137, 5x154, 6x172, 8x195, 10x224mm

18V Cordless Brushless Multi-Tool with 35 Accessories

Models: DCS355M2-GB

Ideal tool for cutting in skirting or drywall, clean grout removal, flooring, pipes or timber, preparing surfaces, scraping or sanding.
- Compact 300W brushless motor delivers 0-22,000 oscillations per minute
- Brushless motor which enhances the runtime
- Variable speed control and dual grip position
- Rubber over mould and ergonomic handle
- Dewalt XR Brushless motor eliminates this wasted energy, maximising the life and runtime of the too
- Also delivers up to 57% more run time over brushed motors
- LED Light
- Unique quick change accessory system - tool free & single handed operation
- Universal Accessory Adaptor for use with most oscillating tool accessory brands
- Supplied with 2 x 4Ah Li-Ion batteries, Multi-Voltage Charger, TStak Kitbox, Blades: Fast Cut Wood Blade, Wood with Nails Blade, Rigid Scraper Blade, Semi Circle Blade, Carbide Grout Removal Blade, Wood Detail Blade, Sanding Pad, 25 Assorted Sandpaper Sheets, Depth Control Straight Cut Guide, Dust Extraction Adpator, Universal Blade Adaptor

Multi-Purpose Clearing Tool - Multi Shifter

SNÖBLAD

A wide blade multi shifter for clearing snow, leaves, water and many other materials. Moves snow and breaks solid ice. Faster and easier than a rake for collecting leaves, moves twigs, shrubs. Directs rain water in to drains, obliterates puddles helps to clear slush and mud, will slice and lift overgrown moss. Can also be used for mucking out stables push and lifts clean bedding, levels and aerates fresh bedding. The blade can also be used to compact and tidy edge of bedding.

- Ideal for both residential and commercial use
- Wide 500mm blade
- Moulded lip on the blade glides and prevents from digging in to the ground
- Made from polypropylene, virtually unbreakable
- Non-stick and easy to clean
- Supplied with 1397mm wooden pole

Dimensions:

- Blade (WxDxH) 500x40x200mm

- 30g

£1.67

order code SA0252306 652397

Ultra Strength Glue

Supa-Fix will bond nearly all types of materials and can be used to fill cracks and holes. The repairs are robust and can be grinded, filed, tapped, sanded and painted.

- 2 In 1 Formula can be used just like traditional superglue, but when combined with the filling powder it can fill holes and cracks in seconds leaving a rock hard concrete like finish
- Supa-Fix is so strong that you can drill and then screw into it without breaking the bond
- Can be ground, filed, sanded or painted over
- Must have for Electricians, Plumbers, Joiners, Model RC Repairs (Planes, Cars, Boats, Helicopters etc) Welders, DIY and Automotive
- Resistant to fluids like oil, petrol and battery acid
- Fill the hole or crack with Reinforcing Powder
- Heat resistant up to 356°F/180°C

Contents: 2x 10ml Ultra strength adhesive, 1x black reinforcing filling powder, 1x grey reinforcing filling powder, nozzle and pin, user guide

Universal Wine Rack for the Refrigerator

SAVE OVER* 10%

This Universal wine rack flat shape is suitable for bottles and cans of all kind. It can also take trays for storing foods and serving dishes. High corrosion resistance, galvanised it has a clear polyurethane coated finish for better protection against external agents like rust.

£14.09

order code HP0102106 712321

Wine Cooler

Perfect for keping the wine at the ideal temperature on the table. thanks to the eutectic mix, which melts and solidifies in 5 hours at a temperature of -18°C, it keeps the bottle cool for a long time up to 3 hours. The eutectic mix is a mixture of salt and water, whcih has a melting point lower than that of its individual components. The eutectic point of the equilibrium of the mix's two components is -18°C. Once the ideal temperature has been reached it remains cool for 3 hours.

Terracotta Pizza Kit

SAVE OVER* 10%

The secret is terracotta, used for cooking for thousands of years, which allows uniform cooking with no oil or fats, bringing natural flavours to the fore. No food cooked in the harsh heat of metal surfaces can taste this away. The terracotta used consists of choice refractory clays, dried and fired at very high temperatures for impressive resistance to thermal shock, scratching and knocks. When heated, it distributes heat evenly and absorbs moisture fast.

Although every effort has been made to ensure prices are correct at the time of going to print, CPC reserves the right to change all prices without notice and at any time. All prices are subject to the current rate of VAT. Products may be available elsewhere from CPC at a different price. Prices in this brochure are only valid during the dates stated on the front of this brochure, and are subject to change in line with market and economic conditions without notice and at any time. Discounts shown throughout are against the original Catalogue price or a previously published price. Some goods are supplied with a manufacturers or CPC guarantee; please check at the time of purchase. Full terms and conditions are available upon request, alternatively view our main Catalogue or online at cpc.co.uk. If you wish to be removed from our brochure mailing list please write to the Marketing Manager at the address provided within this brochure, stating your account number, or phone our sales office. CPC is a division of Premier Farnell UK Limited. Registered No. 860093. Registered Office: 150 Armley Rd, Leeds LS12 2QQ, UK. Trading address: CPC, Component House, Faraday Drive, Fulwood, Preston, PR2 9PP. Details of CPCs data protection policy are available upon request (please quote SUDATA), or to view in our main catalogue or online at cpc.co.uk.
Battery Producer Registration Number: BPRN00563. WEE Producer Registration Number: WEE/AK0049TZ.
